MARCH 2003

WHITTIER BOULEVARD (STATE ROUTE 72) PAVEMENT REHABILITATION PROJECT

The California Department of Transportation (Caltrans) has begun reconstruction of Whittier Boulevard between Valley Home Avenue (near the Los Angeles/Orange County line) and the San Gabriel River Freeway (SR 605) in the city of Whittier. Construction consists of grinding and removing the existing pavement and adding a new layer of concrete, which will provide a smooth riding surface and will extend the lifespan of the road.

Starting the week of March 3 and continuing for the next three months, construction will include removal and replacement of concrete sidewalks, driveways and curbs between Norwalk Boulevard and the SR 605.

- Construction activities will be performed between the hours of 6 p.m. to 6 a.m., weather permitting.
- Construction may generate increased noise.
- Work will not be scheduled during holiday periods.
- Parking, driveway and business access will be maintained at all times.

Beginning the week of March 10, Whittier Boulevard at the Washington Boulevard - Five Points intersection will be reduced by one lane as preparation for pavement rehabilitation takes place.

Estimated project completion is October 2003.
